Comprehensive Assurance Checklist — On Us!

Dependable Service You Can Count On...Like Family

At Converse Electric, we don't charge by the hour. Instead, for \$89.95, which includes travel, our technician will not only determine what's needed to solve your immediate problem, but with your approval, will also perform a complimentary diagnostic evaluation of your entire electrical system. Then, using our Client Assurance Pricing Guide, we will quote you an exact price for making any necessary repair(s). We will never surprise you with a bill higher than you expected.
